Their Review

I've always been lucky selecting contractors over the years. MJS extended my winning streak. Our custom kitchen is absolutely perfect. No detail was overlooked in giving us our brand new, world class kitchen. I even visited their 10,000 sq ft. shop twice and was most impressed by the level of professionalism of all of his staff. Jerry is the real deal who knows his stuff and so is MJS Woodworking. You can only win having them do your cabinetry or any other custom woodworking job. Also, costs were in line and in some cases lower than quotes of stock cabinet kitchen remodelers.

HomeAdvisor customers rely on Ratings and Reviews to make hiring decisions. Make sure you stand out from the crowd and win more jobs by getting reviews from previous customers.
